

It's very obvious that this proposal is a request by a specific group to benefit their own operating desires. Unless there is a contest, this portion of allocated spectrum, will go unused. Any non-contest weekend, will prove my point.

Additionally, it will promote others to join the "bandwagon" requesting segments, for their own needs.

I have been in amateur radio for 28 years, am very proud of the hobby, and request, that the band is left as is. Amateurs have always been self-policing, with majority following courteous practices. Please consider my comments when evaluating this proposal.

Thank you,
Robert Tiller
